

ANTEA Cement General information

Fact sheet 2015/GEN/1

ANTEA Cement Sh.a is one of the biggest Greenfield investment in Albania, with a total value exceeding 200 million euro and one of the biggest industrial companies operating in Albania. The investment has been made jointly by the TITAN Group, a Greek multinational cement company, the International Finance Corporation (IFC) - an organization of the World Bank - and the European Bank for Reconstruction and Development (EBRD). ANTEA Cement Sh.A has been built and operates to the highest standards and available techniques for energy efficiency and environmental performance.

ANTEA Cement has been recognized as best practice by IFC for fully respecting workers' human and labor rights as well as WBCSD for Quarry rehabilitation. We are the first and only company in Albania certified with SA8000 which ensures high working standards in industrial sectors.

ANTEA Cement has in place an Integrated Management System (IMS) which is comprised of four management systems being:

- OHSAS 18001 for Occupational Health and Safety
- ISO 14001 for Environment
- ISO 9001 for Quality
- SA 8000 for Social Accountability

TITAN Group, the mother company of Antea Cement sh.a, was founded in Greece in 1902. With its headquarters in Greece -where the parent company has been listed on the Athens Stock Exchange since 1912-TITAN Group's vertically integrated activity spans 9 countries.

In 2014, the Group counts for 5,500 direct employees, 13 cement plants, 126 ready mix plants and 64 quarries in all countries it operates. TITAN's business success and reputation are based on the application of best available technologies (BAT), for production procedures and distribution methods, on systematic research and constantly upgraded know-how, and on its high-quality human resources.
