Our socio-economic footprint in 5 years

Fact sheet 2015/CSR/2

If someone would ask 'What is the biggest investment realized in Albania during the last 20 years', the answer would undoubtedly be: ANTEA Cement. Despite being a huge investment with the most advanced contemporary technology, the plant has contributed to the economy and society in Albania in terms of:

- /// Improved infrastructure
- /// Increased income for the State
- /// Increased number of employed people
- /// Creation of new companies in the local community
- /// Setting high working standards
